MBA In A Box is a vital resource for anyone who wants to gain a competitive edge in today's difficult business landscape. An all-purpose guide to everything you need to know about business, it was developed by those who practice making the big ideas not only accessible but actionable. Designed to be used hard and frequently, the book is organized to reflect the way normal people do and think about business.

For both those with an MBA who need a refresher and for those who don't have an advance degree but want to gain a greater understanding of how business really works, MBA in a Box will provide key insight into what's happening on the cutting edge of business from those who live it--because in today's knowledge economy, you can't compete on yesterday's ideas.
